WELCOME

Each summer we gather to build a village that lives for only six days. In this place, life takes on another rhythm, set by music, story, artistry, and those unexpected kindnesses that stitch us together. We walk its paths on foot, pausing to notice what is around us, and find meaning in small moments. Routine is left at the gate, discovery becomes our way of being.

We live in times when the news of the world can weigh heavily. For these few days, we choose to balance that diet with one of optimism, imagination, and wonder. Not to look away, but to look deeper, to notice the beauty, courage and creativity that still lives so abundantly in one another.

Artists arrive with their stories and songs, offering themselves with rare vulnerability. In turn, we are invited to soften, to let go of what we no longer need, and to walk into a new year carrying the best of ourselves.

Woodford is a village of curiosity, play, creativity and renewal. It reminds us that joy is not frivolous, that kindness can transform us, and that nature, ever-present, grounds and inspires us. As we come together in the great ritual of renewal at the festival's end, we remind ourselves that the beginning is always now. Together we rehearse ways of living that might carry us, and the world we touch, towards something better.

So, on behalf of the Woodfordian community — artists and organisers, volunteers and dreamers, cooks and candlestick makers — welcome to the 38th Woodford Folk Festival. May these days nourish you, surprise you, and send you home with a twinkle in your eye, carrying a little more wonder into the year ahead.

Woodfordia is on Jinibara Country

Our Traditional Owners are members of the Jinibara Nation. The Jinibara people are the registered Native Title holders for the Woodford area and are comprised of the descendants of Fanny Mason, known as Jowalmel, who was born in the 1840s at Woodford, and Johnny McKenzie, known as Wangiramu, born in 1826 near Kilcoy.

Learn about Jinibara history and culture and meet the Jinibara elders at the Jinibara Centre and Jinibaråa Tea House.

Some words of CAUTION to our Aboriginal and Torres Strait Islander readers: There may be images within the programme book that are of deceased persons.

The Woodford Folk Festival is organised by Woodfordia Inc., a community based non profit organisation whose object is to foster the folk movement. Woodford Folk Festival is held in the Moreton Bay region.

CEREMONY

It is the Festival that bring us together and ceremony that attunes and deepens the experience through reflection and connection. The Woodfordian tradition of ceremony and ritual is held dear in the hearts of many of the community and has become an integral part of people's lives. Our ceremonies and rituals are open to all, made up of moments, some planned, some programmed with others ephemeral and experiential. Join in with our Jinibara community as we open the Festival, dance on the Village Green, experience a Tibetan sand mandala, share in the glow of ten thousand candles in silence, write your wishes and dreams in preparation for The Renewal Ceremony or seek your own time and space on this sacred Country. We hope these moments enrich your journey and deepen your connection to community and its shared experiences.

WISHES AND DREAMS

Take the time to write down your wishes and dreams at one of the Festival's beautiful spaces. This is a unique opportunity to reflect for yourself, your community, your world and beyond and share your vision. The wishes and dreams will be lovingly cared for and brought together as part of The Renewal Ceremony for a transformative ritual.

FESTIVAL CHOIR REHEARSAL

For many Woodfordians, the Festival Choir is an annual pilgrimage to raise their voices in joy and celebration along with their fellow festivillians. Whether this is your first or 20th time, we invite you to join choral master Beat Lehmann to sing together each day, learning the songs that culminate in a performance onstage as part of the soundtrack to The Renewal on January 1. Remember to wear white for the performance. Please dress in white and bring something blue.

3 MINUTES' SILENCE

At the tolling of the bell at 11:30PM on New Years Eve, the Festival village and all held within fall silent. Faces are bathed in the golden glow of everyone's hand-held candles. At this time, we wrap our loved ones in our mind's embrace and reflect on our journeys – past, present and future. We take a moment to pay our respect to our absent friends and cast our minds to the mysteries of what the future may hold.

Patrons – including children – are invited to become a Lanterneer for The Renewal, creating a lantern inspired by the beauty of nature. Lanterneeers are also welcome to participate in small nightly ceremonies, where you can add your lantern to a growing light garden, as well as for The Renewal.

A FOREST OF GOODWILL

PROTECTING WOODFORDIA FOR GENERATIONS

" Woodford is profoundly different to any other festival... it brings out the best of humanity."

— Kate Miller-Heidke —

Across the country, iconic festivals have been forced to close their gates. But Woodfordia has already proven what's possible when community, creativity, and care for the environment come together.

JOIN THE CAMPAIGN TO SECURE WOODFORDIA FOR FUTURE GENERATIONS

Through A Forest of Goodwill, we are working to raise $5.7 million to purchase and protect 500 acres of Woodfordia's unique landscape. This is not an abstract idea, it is a campaign to secure and protect the cultural and ecological heart of Woodfordia for generations to come.

THE VISION IS ALREADY REAL

More than 171 bird species have been recorded on site. Lake Gkula has become an award-winning eco-tourism project, providing clean, swimmable water and habitat for native species. Volunteers and staff have planted over 650 of our 2,500 target native tree species, rebuilding biodiversity tree by tree.

Leading environmental thinker Professor Ian Lowe reinforces what's at stake:

"What's happening here is much more than a festival. It's a demonstration project – a temporary town of 30,000 people showing what sustainable communities could look like. From world-first water treatment to removing single-use plastics, Woodfordia is replaying and recreating ecological systems that restore balance to the land."

Woodfordia is not only an environmental success story, it is also one of Australia's most significant cultural gatherings. Here, art and music spark new ideas. Audiences discover theatre, circus, comedy and dance alongside music of every genre.

Conversations about culture, climate and creativity sit alongside celebration and song.

For many, Woodford is also a family ritual, a place where children grow up exploring freely, teenagers find independence within the community, and older generations share wisdom and stories.

YOU CAN BE PART OF SECURING WOODFORDIA'S FUTURE

Visit the Forest of Goodwill installation during the festival and make your donation.

Together, we can ensure Woodfordia continues to be a sanctuary of creativity, connection, and renewal – for generations to come.

"When you invest in Woodfordia, you're investing in a living system where people and nature thrive together. It's proof that culture and environment can be reimagined hand in hand."

— Costa Georgiadis —

GAVIN RYAN

ARTIST IN RESIDENCE

Gavin Ryan, long-time artist in residence at Woodfordia, returns this year with a poster that journeys through the passage of time. His vision reflects those timeless moments of beauty and wonder at the festival – being lost in dance, transfixed by performance, or standing amidst thousands of candles mirrored by the Milky Way during the Three Minutes Silence. At the centre of his work, the butterfly takes flight once more, a symbol of transformation, journey and freedom. It traverses the eternal deeps of space and time, carrying that esoteric essence that lingers at the heart of Woodfordia.

The lettering itself holds echoes of the festival's many facets, each word a reminder of the physical Woodford experience. All of it floats above a regenerating landscape, alive with promise and renewal. Winding roads weave through the scene, leading the people back to the festival's embrace. With each detail, Gavin invites us to discover the magic, again and again, through the art that has become part of Woodfordia's story.

CHRISTOPHER TROTTER

This year marks 20 years since artist Christopher Trotter first displayed his work at the Festival. From Blitz Creek Bush Truck to Chook Racers and Rants, he's brought pieces to Woodfordia that promote sustainability and freedom while remaining accessible to audiences young and old, and from all walks of life.

Through reimagined recycled materials, his sculptures transform discarded objects into meaningful art that speaks to everyone and inspires positivity.

Each piece carries messages about environmental responsibility and creative possibility, demonstrating how forgotten materials can be reborn with fresh purpose and beauty while uplifting spirits.

PHILOSOPHY SERIES: MEETING PROCEDURES AND PROCESSES WITH CULTURAL INTEGRITY

Across Indigenous nations, there has always been a deep respect for the processes of meeting. This respect was practiced both internally, within communities, and externally, when people came onto Country. These traditions remind us that the act of gathering is not only practical but cultural, carrying with it protocols of respect and care. This long history is echoed in the practice of Welcome to Country, a tradition that reaches back some 2,000 generations. It reflects an enduring philosophy of how people meet, acknowledge each other, and hold space with integrity.

PHILOSOPHY SERIES: LIVING AND DYING JOYOUSLY – A JOURNEY OF AWARENESS

What if living and dying are not problems to solve, but opportunities to wake up? From the Buddhist perspective, the mind is not limited to thoughts or emotions – it's a vast, open awareness that remains steady even in the face of change and death. When we train in recognising this awareness through meditation, we begin to see that joy doesn't depend on circumstances – it's already within us. In this conversation, Tenzin Choegyal and Gordi explore how understanding the mind can help us live with more freedom and face death without fear. Drawing on both contemplative wisdom and modern science, they'll look at how awareness, compassion and even a little sense of humour can transform our experience of life and allow us to meet death not with resistance, but with confidence, curiosity and maybe even joy.

SING LIKE A BLOKE

This is a workshop for blokes of all genders (that is to say, everybody)! Stephen Taberner and his trusted Spooky Men will take you on a gentle, whimsical, boofish journey through various major components of the spooky lexicon, including how to grunt with integrity, how to sob like a real man, and how to walk around like a 22 stone tribal chieftain. You'll make some interesting noises, and then you'll very likely explore the socio-musico-dynamics of how to sound like 80,000 visigoths on the march across the steppe. And then, quite unexpectedly, you will sing some tender love song. It is all about exercising one of the most luxurious of human abilities, that of making sweet and powerful sounds together. It will be hugely enjoyable, deeply redemptive, quite loud, and utterly pointless.

SWELL
SCULPTURE FESTIVAL

Explore these artworks throughout our Festival village

Peter Tilney & De Lamby Wulff | BIG

BIG is created as a tribute to the QCWA, reclaiming scale as a vehicle for humour and delight. Enlarging familiar forms into monumental presence, the sculpture alters perception and creates a sense of wonder. Both satirical and celebratory, BIG speaks to ambition, consumer culture, and the joy of exaggeration. Playfully oversized, it shifts everyday experience into the extraordinary, reminding audiences that art can magnify life's simplest details into bold, unforgettable encounters.

@houseoflamby

Betty Chamberlain, Walter Holt & Josh Scott-Jouir | The Net

Towing a line between hard and soft, The Net moves like a blanket with the threat of a barbed wire fence. Salvaged metal slices are abraded and woven like an armour, the mechanical ripples imitating waves, a breath, a sigh. 'Ghost nets' are haunting the oceans. Orphaned fishing gear is devastating to aquatic life: a seemingly harmless plastic mesh becomes a binding, suffocating trap; the silent assassins of the seas. Indiscriminate in nature, ghost nets will haunt our seas for years to come. The Net is a call to action.

Chainsaw Newton | Roll Models

Christian "Chainsaw" Newton, a self-taught sculptor from Chinderah in Northern Rivers NSW, presents Roll Models, a playful yet poignant commentary on resilience and adaptability. Carved with humour and warmth, the work celebrates the ability to keep moving despite obstacles. By personifying determination through rolling, character-driven forms, Newton reminds audiences that perseverance—whether in nature or in human life—can transform challenges into momentum, offering both joy and strength.

@chainsawnewton

Mieke Van Den Berg | Mystic Passage

Mieke Van Den Berg's Mystic Passage evokes thresholds between the known and the unknown. With layered textures and subtle shifts in form, the sculpture creates an immersive journey that suggests spiritual transition and inner exploration. Like stepping into a liminal realm, the work encourages viewers to slow down, contemplate, and open themselves to mystery. It becomes both a physical and symbolic passage towards heightened awareness and connection.

@art_bymieke

1:3 | Reuben Mergard

1:3 is a study in position, scale, and perception. By reconfiguring familiar geometry into new arrangements, the work challenges audiences to reconsider location and the created form. Drawing on geometric precision and artistic intuition, Mergard explores moments of creative origin. 1:3 becomes a dialogue between place and imagination, inviting reflection on the spaces where concepts become reality.

Rae Saheli |Spinning Memories

Rae Saheli's Spinning Memories captures the delicate threads that bind time, memory, and identity. Using movement and form to suggest cycles of remembrance, the work invites viewers to consider how personal and collective histories spin together to shape our present. Balancing fragility and strength, Saheli's sculpture becomes a meditation on continuity, loss, and renewal, encouraging reflection on the stories that shape who we are.

Nicci Parry-Jones & Steve Morgan | Anti-Gloom Portal

Artists Nicci Parry-Jones and Steve Morgan present Anti-Gloom Portal, a vibrant sculptural gateway that transforms heaviness into light. With radiant colour and dynamic form, the work invites audiences to step into a realm of optimism and playful imagination. More than an object, the portal functions as a collective space for joy, reminding us of art's power to shift mood, transform perspective, and reconnect communities with hope.

@pj_pottery

Vaclav Horacek | The Enigmatic Pufferfish Spirit

Vaclav Horacek's The Enigmatic Pufferfish Spirit merges myth and marine biology in a work both whimsical and profound. Inflated in form and shimmering with symbolic presence, the sculpture draws attention to fragility in the ocean ecosystem. By reimagining the pufferfish as a guardian spirit, Horacek highlights the balance between defence and vulnerability, encouraging audiences to consider how human action affects the delicate creatures that inhabit our seas.

Russell Solomon | Anthropocene Plastics: The Final Extinction Event

Russell Solomon's Anthropocene Plastics: The Final Extinction Event offers a sobering meditation on environmental collapse. Constructed from synthetic detritus, the sculpture critiques humanity's reliance on plastics and its devastating ecological consequences. Confronting audiences with a vision of extinction, the work warns of futures shaped by waste and neglect. Yet in its starkness lies urgency: a call to reconsider consumption and acknowledge our role in shaping planetary survival.

@rustywiresculptures

Jan Brown | Crysalis

Jan Brown's Chrysalis series explores transformation and growth through intricate woven copper wire forms. Suspended and organic, the works evoke emergence and resilience, their delicate structures shifting with light and perspective. Drawing on her background in ceramics and her grandmother's love of weaving, Brown translates hand-coiling processes into metalwork. Inspired by the natural world, Chrysalis reflects life's cycles, symbolising the journey from fragility to vibrancy.

@janbrownmetalart

Colleen Lavender | Unbridled Freedom

Colleen Lavender's Unbridled Freedom captures the raw energy and spirit of release. With dynamic forms suggesting galloping motion, the sculpture embodies vitality, independence, and the breaking of constraints. Lavender draws inspiration from nature's power and the symbolism of the horse as a figure of strength and grace. The work invites audiences to feel the exhilaration of movement without limits, celebrating freedom as an essential human and universal drive.

@colchameleondesign

Jeanette Stok | According to the Rules

Jeanette Stok's According to the Rules interrogates systems of order, authority, and compliance. Through precise forms and layered symbolism, the work questions who creates rules, who benefits from them, and how individuals navigate structures of power. Both playful and provocative, the sculpture invites audiences to reflect on the invisible frameworks shaping society, while also suggesting the possibility of bending, breaking, or rewriting rules to imagine new ways forward.

This, in turn, is a useful tool in both emotional regulation and self-mythology. Comic artist Liz Witt will guide you through the process of starting and maintaining a daily drawing habit. Through individual and group exercises, you'll learn about the physical tools, artistic shortcuts and mindset required to foster a sustainable creative practice. *Ages 12+*

A LEGACY FOR GENERATIONS

SAFEGUARDING LAND AND CULTURE SO THE STORY CONTINUES

Almost forty years ago, a handful of dreamers gathered with little more than hope and a big idea: that folk music and culture could spark something greater. From those beginnings, Woodfordia has grown into more than a festival. It has become a home for creativity, connection, and belonging.

TOGETHER, WE'VE BUILT SOMETHING EXTRAORDINARY

But Woodfordia has never been just about the here and now. At its heart lies the 500 Year Plan, a promise to pass forward an organisation free from debt, resilient, and alive with possibility. A sanctuary that future generations can inherit with pride.

A GIFT THAT LASTS BEYOND A LIFETIME

Everyday giving keeps Woodfordia alive, buying tickets, volunteering, planting a tree. But a gift in your will is different. It's enduring. It says: *"I was here. I cared. I helped keep this place alive for generations."*

Even the most modest bequest helps secure the 500 acres of Woodfordia's heartland, protect it as an environmental showcase, and ensure this community of creativity and inclusivity thrives long into the future. *Peace of mind knowing your values will live on, long after you're gone.*

A ONCE-IN-A-GENERATION OPPORTUNITY

Australia is experiencing one of the largest intergenerational wealth shifts in history. Over the next 20 years, more than $3.5 trillion will pass from one generation to the next.

FOR FAMILIES, THIS IS LIFE-CHANGING

For organisations like Woodfordia, it represents a once-in-a-generation chance to shape the future. Imagine if even a fraction of this wealth flowed into cultural and environmental legacies, the ripple effect would be extraordinary.

The chance to be part of something bigger than yourself, a 500 Year Plan that outlasts us all.

YOUR LEGACY, OUR FUTURE

A gift in your will is more than a donation; it's your story written into Woodfordia's future.

FOR YOU, IT'S PEACE OF MIND

For Woodfordia, it's the strength to protect the land, restore the environment, and keep the spirit of belonging alive for generations.

Your legacy will be felt in every song sung, every tree planted, and every gathering that brings people together here.

A LEGACY FOR GENERATIONS

Protect what you love today, so it can thrive tomorrow. Visit the Woodfordia team in the Forest of Goodwill tent during the festival for more information.

MAKING IT SIMPLE WITH SAFEWILL

We know writing a will is something many of us put off. That's why Woodfordia has partnered with Safewill, Australia's leading online will-writing platform.

- Create a legally valid Will in less than 20 minutes, every one is reviewed by an Australian solicitor.
- During February 2026, write your Will for Free by taking part in Free Wills Fortnight.
- Year-round, Woodfordians receive 50% off (just $90).

Important:
A simple Will may not be appropriate for everyone. More complex estates often require specialist legal advice.

WHAT WE ARE DOING BEHIND THE HESSIAN FENCE

SEWERAGE TREATMENT PLANT

Woodfordia's own Sewerage Reticulation System means that we have 0% discharge of effluent from Woodfordia.

We capture all of our patrons waste, treat it and irrigate (in off peak season) onto our own bamboo plantation.

Our system treats over 7 million litres of sewerage during the Festival. The bamboo is used in projects on-site and used for making lanterns, decorations, flags and many other usages.

COMPOSTING

We love compost!

We compost the organics in our very own compost area. Woodfordia uses this compost for projects across the site and we need more. Please put all your food scraps, plates and cutlery provided by our stalls into the Dark Green bins marked "Compost" to feed our happy worms.

Your cups will be either washable (through our bar cup scheme) or home compostable to AS 5810.

RECYCLING

Woodfordia is aware that recycling programs are currently ineffective, and we are working diligently with our suppliers to ensure that we capture as much as we can so it doesn't end up in landfill. Currently, Woodfordia is recycling cardboard and refundable containers.

WATER

All water is harvested and treated on-site and is potable. Woodfordia treats approximately 8 million litres of water during the build, Festival and pack-down periods.

RENEWABLE ENERGY

Woodfordia currently has two solar installations:

- A 6kw solar system on our General Store; and
- A 43kw solar pv and 30kw/hr battery installation on one of our sheds which powers our office, staff EVs, workshop areas and sewerage treatment plant year round.

TREES AND VEGETATION

Over 130,000 trees and vegetation has been planted at Woodfordia since 1994 with an estimated 450 different endemic species thriving over the 500 acres which is helping with Woodfordia's biodiversity.

LAKE GKULA

Our lake is a natural habitat where many fish and other aquatic species live contently throughout the year. The wetlands do a wonderful job of keeping Lake Gkula pristine for all creatures (including us folk) to enjoy.
